

a Better Tomorrow inc.

Providing tools for life.

Kudos, to all Howard 09' Graduates for your accomplishment. We encourage you to make this achieve apart of your reputation; setting goals and completing them. Our vision is to give today's youth the tools they will need to make rational, responsible decisions. "Goal" setting is a task strongly encourage by the ABT program.

Out of the top five goals set by the participants, graduating from high school is their number one goal. There were quite a few 09' seniors that participated and completed the eight-week "Destiny & Life Choices" program this year or in the past. To see them walk across the stage toward their purpose is so up-lifting. Awesome!
