

School is out, it's time for SUMMER!

The "Choices" summer program is in effect. Participants gained knowledge on different experiences that life may bring. The components consisted of Gang Prevention, Money Matters, Self-Esteem, Violence & etc. Throughout the program the teens identified some opportunities that they pondered over that would impose a great hindrance in their life. After gaining more information on the situations and encouraging words the teens were able to make a rational responsible decision on the matters.

Unfortunately, we had to have a little fun in the process. Just Kidding! We had a BLAST! A basketball tournament was a perfect opportunity for the girls to show off their game. Bowling at Tri-state Bowl was extremely awesome! Also, you can not have a summer camp without a PIZZA PARTY. Yum-yum! To top it off a trip to White Waters was the icing on the cake.

To further equip the participants for their future, ABT staff presented an opportunity for office interning. Two participants jumped on the chance to gain knowledge on the behind-the-scene administrative functions of ABT. They did an amazing job and were very professional.
