To Whom It May Concern:

Subject: "A Better Tomorrow", Richard Bennett, and Kathy Schmidt
Recommendation

I am pleased to have the opportunity to recommend A Better Tomorrow as a resource for imparting and supporting positive and appropriate interpersonal climate within a community.

Our community is the school and Mr. Bennett, Kathy Schmidt are very effective change agents for correct individual student demeanor and total school decorum. They are first of all committed to our school goals and want to support the school in meeting those goals. Secondly, they have the skills to effect positive change that not only help school improvement; it transfers to better community relations in our children's neighborhood.

Mr. Bennett and Mrs. Schmidt have ambitions. Their ambitions are not only for their program success; they include the improvement of our school and the community within. I am hopeful that this recommendation supports the attainment of their goals and desired accomplishments.

Sincerely,

Reuben R. Justice
