Sept. 26, 2007

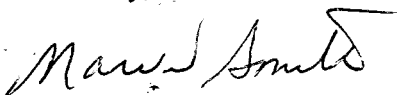

To whom it may Concern:

I would like to commend Mr. Richard Bennett and Kathy Schmidt of A Better Tomorrow Inc. for the outstanding job that they have done with our students here at Washington Alternative Center.

When we first met with Mr. Bennett and his staff in August of 2006 we made it clear that we wanted someone that we could depend on. They assured us that they would do what they said. Since that initial meeting we have been very pleased with the life skills program that A Better Tomorrow presents to our students. We don't have to worry about the commitment of the people involved in this program.

Mr. Bennett and Mrs. Schmidt have gone above and beyond our expectations. They continue to take a special interest in the students even outside of the classroom. I would highly recommend this program to any school or organization as being something that can truly make a difference in the lives of young people.

Sincerely,

Marvin Smith
Coordinator, Washington Alternative Center
